BYOD

Students are strongly encouraged to bring a digital device suitable for the purposes of learning to school. It is preferable that students bring a laptop. The use of such devices in the classroom is at the discretion of the teacher.

What do we recommend?

At Stratford High School, we use Microsoft Office 365 as our Learning Management System and medium for digital learning. Our students have access to Office for **free**, which includes Word, Excel, PowerPoint, Outlook, OneNote and OneDrive.

Laptops, Chromebooks, or Macbooks are all suitable devices. NB: Tablets (e.g. iPads, Android Tablets) do not always offer the functionality that students need, even with a remote keyboard.

The recommended minimum specification for a laptop is:

- 8GB RAM
- 128GB SSD drive
- 11.6" or larger

You can find these suitable devices at the following various locations:

Dimocks
Noel Leeming
Harvey Norman
PB Tech
Janko Computers
Office Max
